

WIRELINE ADAPTER KIT

The Kappa Wireline Adapter Kit is used to attach wireline set packers or any other compatible wireline set tools to the 10/20 setting tool. Once the tool is set, the adapter kit is released when the required shear force is achieved by the setting tool.

- ▶ **ALLOWS FOR “PLUG-IN-PLACE” RUNNING**
- ▶ **CAN BE USED WITH MOST COMMON BLANKING PLUG TYPES AND SIZES**
- ▶ **USED WITH #10 OR #20 HYDRALIC SETTING TOOL**
- ▶ **SHEAR RELEASE AFTER TOOL IS SET**
